

Metropolitan Transportation Authority Eye on the Future Data Overview

General Description

The Eye on the Future data contains information for prospective contractors, engineers, architects and vendors about contracts that are expected to be advertised for bids during specific time period by the Metropolitan Transportation Authority's operating agencies.

Data Collection Methodology

The data is collected in database on a quarterly basis. The information is provided by MTA New York City Transit (NYC Transit), MTA Staten Island Railway (SIRTOA), MTA Long Island Rail Road (LIRR), MTA Metro-North Railroad (MNR), MTA Bridges and Tunnels (B&T), MTA Capital Construction (MTACC) and MTA Bus Company (MTA Bus).

Statistical and Analytic Issues

With respect to the contract descriptions and other data included in this volume, it should be noted that they are for general information only and are not to be construed as final. The exact description of the work and other pertinent information concerning an individual contract will be found in the contract specifications and drawings or solicitation documents which may be obtained by prospective bidders when solicitation begins. Most contracts for construction, procurement of capital equipment and professional services are awarded after a competitive process, including sealed bids for construction and procurements and competitive requests for proposals for professional services.

Limitations of Data Use

There are no limitations on this data at this time.
